

Wheel Brush Set 3pc

Set of three wheel brushes for cleaning all types of wheel rims, including alloys, featuring a coarse brush for heavy dirt removal, a fine brush for light dirt and final finishing and an abrasive sponge to remove brake dust. The brushes are colour coded for easy identification and have rounded plastic handles that are light and comfortable to use and are unlikely to cause damage if they happen to hit the wheel.

Additional Information

- Effortless wheel cleaning with this set of 3 wheel cleaning brushes.
- Set includes: coarse brush, fine brush & abrasive sponge.
- Brushes have soft strong bristles for effective, non-scratch cleaning.
- Complete with handle hanging holes for convenient storage.
- Flow thru alloy wheel brush also available, please see Part No. 5458.
