

Dual Connection Adaptor - for Bosch

A two piece double threaded adaptor that attaches to both inner and outer threads on the injector body to allow the use of a slide hammer. By connecting to both inner and outer threads the force of the slide hammer impact is spread across a greater area of the injector body reducing potential damage.

Additional Information

- Applications include: BMW, Mercedes-Benz, PSA and Renault. Also works on Ford Fiesta 1.4TDCi with Siemens injectors.
- Allows a connection to both the internal M17 internal thread and the M27x1 external thread.
- To be used with the Laser Slide Hammer (such as Part No. 4811) or with any slide hammer with a 5/8" UNF thread.
- Use in conjunction with Laser Bosch Injector Dismantling Tool (Part No. 4761).
- Made in Sheffield. Adhere to recommended torque.
