

## Clamp for Strut Insert Pistons

Designed to lock a MacPherson strut quickly and easily in its fully extended position, before the road spring is removed, and hold it in that extended position until the road spring is replaced.

### Additional Information

- This tool is particularly useful when working with struts that are equipped with strong internal springs (tension stop springs) that pull the strut shaft partly into the strut.
- For strut pistons with max. diameter of 21mm.
- Included in Laser MacPherson Strut Expander Tool Set, Part No. 5790.
