

Specialist Thin Wall Glow Plug Socket Set 1/4"D, 3/8"D

A set of 3 split sockets for glow plugs where the wires are best left connected as with some Alfa Romeo, Fiat and GM engines. The set includes the very latest special socket and protective sleeve for PSG plugs (Pressure Sensor Glow-plug).

Additional Information

- Applications include: Audi, Seat, Skoda, Volkswagen, Mercedes-Benz, Smart, VAG, Fiat, & Vauxhall, Opel.
- A M10 deep socket also equipped with a snap ring to ensure glow plugs do not accidentally fall out of the socket making fitting and removal of the plugs much easier.
- 5 PSG plastic anti-static protection caps and one 12mm single Hex deep 3/8" drive socket with snap ring for a secure fit.
- 8, 9 and 10mm deep sockets equipped with 3/8"D & U/J's (72mm long); plus 8, 9 & 10mm deep sockets equipped with 1/4"D with U/J's (60mm long).
- Manufactured from chrome vanadium.
