

Window Socket & Crows Foot Wrench Set 3/8"D 8pc

Window socket and crows foot wrench set, in 14mm, 15mm, 17mm and 19mm sizes, designed for difficult access applications including engine sensors and fuel pipe flare nuts. The window sockets have a cut out to allow access to pipe connectors and sensor units, particularly useful when loosening ABS pipes, master cylinder pipes, diesel injection pipes and wired sensors, whilst the universal joint crows foot wrenches incorporate a flexible "ankle" joint for improved access in awkward areas. A useful, problem solving set for the automotive workshop, manufactured from chrome vanadium, presented in an EVA foam tray for convenient tool drawer storage.

Additional Information

- Flexible Crows Foot sizes: 14, 15, 17, 19mm.
- Difficult access sockets: 14, 15mm x 62mm long; 17, 19mm x 80mm long.
- 6 point profile (Single Hex) & 3/8"D.
- Designed to offer increased access options where ordinary access may be difficult.
- Manufactured from chrome vanadium.
