

Magnetic Socket Holder

Magnetic shelf-style socket holder. Ideal for storing loose sockets of any size up to 16mm wide. Four strong magnets attach the holder securely to any ferrous surface and there are also mounting holes when a permanent fixing is preferred. The magnetic base has closed ends to store sockets safely whilst allowing easy access.

Additional Information

- Magnetic shelf-style socket holder.
- Four strong mounting magnets offer a weight carrying capacity of 2kg.
- Mixed drive sizes can be easily stored together.
- Size: 280mm x 33mm x 16mm
- Manufactured from steel with powdered coating.
