

Oil Drain Repair Kit 38pc

A set of high quality replacement steel plugs and copper washers, to repair stripped or worn drain plug holes on oil or transmission pans by enlarging the holes and fitting with new drain plugs and washers.

Additional Information

- Drain plug repair sizes: M13 x 1.5, M15 x 1.5, M17 x 1.5 and M20 x 1.5; with 4 copper washers for each.
- Magnetic drain plug tool included which helps mechanics drain hot and dirty engine oil without having a direct physical contact to the oils. Resistant up to 120°C, 290mm long.
- Pitch gauge helps mechanics determine a fastener's diameter, pitch and length easily.
- Taps and Drain Plugs: M13 x 1.5 - BMW, Honda, Ford, Lincoln and Mercedes-Benz; M15 x 1.5 - Acura, Audi, Chevrolet, Chrysler, Dodge, Ford, GMC, Honda, Hyundai, Isuzu, Land Rover, Lexus, Mazda, Mercedes-Benz, Saab, Seat and Volkswagen.
- M17 x 1.5 - Corvette, Jaguar, Peugeot, Renault, Subaru Legacy and Volvo; M20 x 1.5 - Chevrolet, Dodge, Honda and Subaru.
