

Magnetic Deep Socket Set 3/8"D 7pc

A set of 3/8"D magnetic deep sockets, from 7mm to 14mm, manufactured from satin finish chrome vanadium. The spring-loaded magnet is designed to travel the length of the socket so the nut is held securely when inserted or removed. Ideal for a wide range of automotive uses including, exhaust manifold studs, handbrake cable adjusters and turbo actuators. Presented on a socket rail for ease of storage.
