

Telescopic Mirror/Pickup Tool & Scriber

3 in 1, telescopic mirror, magnetic pick up tool & scriber. The long-reach tool extends to 680mm, ideal for hard to reach areas, and folds up to a compact 150mm for convenient pocket storage. The mirror is a useful 40mm in diameter and can be rotated through 360° making it easy to adjust to the best viewing angle. The mirror unscrews to reveal a magnetic pick-up tool, which has plenty of holding capacity at 454g (1lb), ideal for reaching dropped screws from restricted access areas. The other end of the tool has a scriber for precise marking, with an end cap to protect the point and the user. A useful 3 in 1 tool, ideal for a multitude of uses round the workshop.
