

Alternator Pulley Tool Set - for Ford EcoBlue

Modern alternator pulleys often incorporate a one way overrun mechanism that makes removal of the pulley difficult. The Laser 8240 pulley tool set is designed to allow the safe removal of the alternator pulley from the alternator.

Additional Information

- Applications include: Ford C-Max, Ecosport, Edge, Focus, Galaxy, Kuga, Mondeo, Puma, S-Max, Transit Custom, Transit Connect & Transit.
- Designed for the removal of the overrunning alternator pulley.
