

Flexible Crows Foot Wrench 11mm 3/8"D

A 11mm flexi-head crows foot wrench for use with a 3/8" square drive ratchet. The flexible head makes it ideal for use in awkward or hard to reach areas, with the open end allowing for use on flare nuts or sensors.

Additional Information

- Extension bar length 43mm (from pivot point).
- Bi-Hex (12pt) profile x 3/8"D.
- Features an open jaw to fit around pipes & cables. Ideal for removing brake, fuel & hydraulic lines.
- Manufactured from chrome vanadium. Extension bar features a matt finish & the wrench has a manganese phosphate coating for corrosion resistance.
- Part of a range of 3/8"D flexible crows foot wrenches from 10mm to 22mm (Part Nos. 8425 - 8437).
