

Difficult Access Oil Funnel

An extra-long oil funnel with a 45 degree cranked spout adaptor, suitable for use on difficult access oil fillers such as those found on motorcycles. It features a transparent funnel to show oil flow, together with a removable plastic filter to prevent debris entering the engine and an integral breather pipe to prevent any airlocks. The spout adaptor can be rotated to allow the extension pipe to be positioned into the filler point while keeping the funnel handle in a comfortable position to hold.

Additional Information

- 3pc oil funnel with an extra long extension pipe & 45 degree adaptor, designed to access hard to reach areas and suitable for use on motorcycles.
- Funnel diameter: 140mm; spout diameter: 29mm to 13mm; long reach: 368mm.
- Angled access adaptor can be removed for straight funnel use as well as easy storage.
- Features a vent to prevent airlocks & a removable debris filter.
- Funnel manufactured from Polycarbonate (PC), extension pipe & adaptor from Polypropylene (PP).
