

Wheel Dolly for HGV & Large 4x4 Vehicles

The ideal solution for moving large heavy wheel and tyre assemblies around the workshop or manoeuvring them off and on to vehicle axles, the Laser 8608 allows one person to safely move wheels up to 150kg.

Additional Information

- Suitable for HGV, large van & 4x4 wheels from 6.5" to 24.5".
- Uses heavy-duty industrial grade bearings to allow the wheel to be spun for better alignment.
- Adjustable roller position.
- One person operation.
- Maximum load: 150kg.
