

High Torque Palm Screwdrivers 2pc

A pair of high-torque palm gripped screwdrivers with anti-slip tips to prevent cam-out and screw damage. The palm action allows for an extraordinary amount of force to be applied with one hand to stubborn screw fixings in comparison to traditionally handled screwdrivers.

Additional Information

- 2pc screwdriver set with ergonomic high-torque handles & anti-slip tips to provide a stronger grip on both the handle and the fixing.
- Sizes: Pozi Pz2; Flat 6mm (SL6).
- Blade length: 100mm; total length: 185mm.
- Manufactured from S2 alloy steel with satin chrome plating & manganese phosphate tips.
- 3-tone Polypropylene (PP)+ soft plastic grip & Polycaprolactam (PA6) handles.
